Hi Jean,

This looks like the EFH effects analysis. My division would be reviewing the section 7 ESA portion of the analysis and if you remember from the WLIS and CLIS, the new format for that analysis is located here and we require submittal in this form:

Thanks!

Hi Chris,

I hope you are enjoying your summer!

It is that time again, we decided for the administrative record to be consistent with our approach to the consultation approach.

So, I have sent a letter but again, attaching the “effects analysis” for your review. The letter was signed and sent out early last week .. I did send an extra copy in the mail and will send it via email today.

As discussed before, this is the Effects Analysis for the Eastern site, (this is draft), so please let me know if there is anything you want me to add or change to make your response easier!

Thanks! ( I am at [617-918-1536](tel:617-918-1536)) if you would like to discuss...
